When I heard about XM Radio I was thrilled. Finally I can listen to music and news commercial free. I subscribed immediately. Now I learn that NAB is trying to tell me what I can listen to and what I can't. I am subscribing to a service that I should be allowed to enjoy and it not up to NAB to control my choices.

Please reject this petition and allow subscribers like me to continue to enjoy the music and news I have been recieving for the last year.

Thank you.
